OUR SERVICE

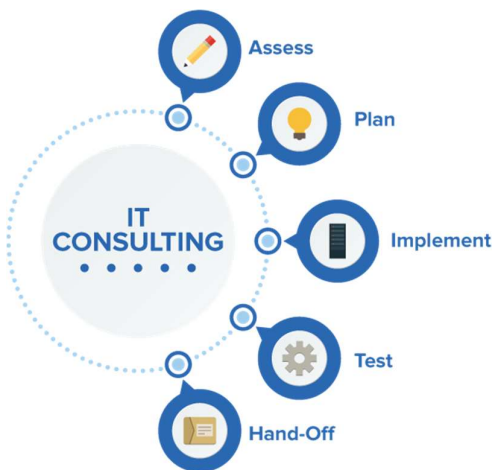

Our technical support team has been trained in software, hardware devices, security, and other related problems and they are always ready to provide assistance to users. Our staffs can be graded technicians, engineers, and experts. They are experienced to support users offline and online, onsite and remotely.

COMPANY HISTORY

Red Cubic Technology is a private company. Founded in Denpasar City January 2019, the company is registered as CV. Permata Infinity Solusindo, trading as Red Cubic Technology.

Having 10 years of technical experience between them, the founders make sure each of their team members had been well trained in specific areas of IT on regular basis to ensure they are up to date with the current technologies and able to handle new challenge.

Besides that, team members are also trained in non-technical values so they are effective in coordinating their efforts in teamwork, being able to see things from the perspective of others such as customers, taking initiative to take on responsibilities above and beyond their stated job and self-management is the sense of regulating their time and work commitments well.

This translates to quick response to customer's needs while making sure the solutions provided are efficient and effective.

Conclusion

Red Cubic Technology' focus is to provide a long term I.T. partnerships with our clients. Most of our client relationships have been for at least five years, many much longer. These long-term relationships allow us to understand our clients' unique needs and requirements and provide a high level of service.

We believe we can provide cost effective service & support allowing you to get the best from your I.T. investment.
